

## SYNMAR VENTI DOT 3 | S400750

**Description** The Synmar Venti DOT 3 provides excellent protection against rust and assures a good transfer of heat. It can therefore perfectly be used for hydraulic brake system of passenger car, commercial vehicles and other vehicles with drum brake and disc brake systems.

**Application** The Synmar Venti DOT 3 is a brake fluid suitable for both drum brake and disc brake systems. The product will not affect seals, metals or alloys. The Synmar Venti DOT 3 has a high 'wet boiling point' which prevents vapour lock at intensive braking. DOT 3 should not be used with ABS/ASR.

**Performance Level** FMVSS 116 DOT 3  
SAE J1703

<b>Typicals</b>	Density at 15 °C, kg/l	1,035
	Viscosity 40 °C, kinematic	7.5 cSt
	Viscosity 100 °C kinematic	2 cSt
	Boiling Point (reflux) , °C	>230
	Wet Boiling Point, °C	>140°C
	Flash point	110 °C
