

## SYNMAR VENTI DOT 5.1 | S400752

<b>Description</b>	The Synmar Venti DOT 5.1 is recommended for ABS and ASR brake systems. Especially the low viscosity of this product compared to DOT 3 and DOT 4 brake fluids stand out very well in these systems. Synmar Venti DOT 5.1 has a high 'wet boiling point' by which the risk of vapour lock is strongly reduced. This is important when asbestos-free brake lining is used, which is connected with the evolution of higher heat	
<b>Application</b>	The Synmar Venti DOT 5.1 can be mixed with other synthetic brake fluids, meeting FMVSS 116 DOT 3, DOT 4 and DOT 5.1 specifications.	
<b>Performance Level</b>	Performance level FMVSS 116 DOT 5.1 SAE J1703	
<b>Typicals</b>	Density at 20°C	1.065 kg/l
	Viscosity, kinematic at 40°C	7 cSt
	Viscosity, kinematic at 100°C	2.1 cSt
	Flash point	100 °C
	Pour point	-36 °C
	Dry Boiling Point	>260 °C
	Wet Boiling Point	>180 °C
