

SYNMAR VENTI DOT 4 LV | S400753

Description	Synmar Venti DOT 4 LV is recommended for ABS and ASR brake systems. Especially the low viscosity, compared to the original DOT 4 brake fluids, stands out very well in these systems.	
Application	Synmar Venti DOT 4 LV is particularly suitable for and also prescribed in new brake systems (a.o. Opel Vectra C, VW Passat B6 and other modern cars build after 2004). These new systems are mostly characterized by thinner brake fluid pipes (more flexible, less material). At low temperatures, these systems require a brake fluid with a lower viscosity to guarantee a rapid response time.	
Performance Level	Performance level FMVSS 116 DOT 4 ISO 4925 class 6 BMW/Mini 83 13 0 139 899 GM 19299570 Saab 93165410 SAE J1704 VW 501.14	
Typicals	Density at 20 °C, kg/l	1.06 kg/l
	Viscosity 40 °C, mm ² /s	6.2 cSt
	Viscosity 100 °C, mm ² /s	2 cSt
	Boiling Point (reflux) , °C	>265 °C
	Wet Boiling Point, °C	>170 °C
