

SYNMAR STEERING FLUID D | S400801

Description

Synmar Steering Fluid D a mineral automatic transmission fluid (Dexron IID level) which can be used successfully as power steering fluid and as an hydraulic oil.

Synmar Steering Fluid D has a high thermal and oxidation stability and offers an extremely good protection against corrosion, wear and foam building. This guarantees a long life cycle for the oil and the equipment, without complications.

Application

Synmar Steering Fluid D has a very low pour point, enabling smooth shifting and steering at low temperatures.

Performance Level

Allison C-4
Dexron IID
Ford ESP-M2C166-H
Ford M2C138-CJ
Ford Mercon
Voith 55.6335.xx (G607)
Caterpillar TO-2

Typicals

Density at 20°C	0.865 kg/l
Viscosity, kinematic at 40°C	38.6 cSt
Viscosity, kinematic at 100°C	7.6 cSt
Viscosity Index	170
Flash point	188 °C
Pour point	-45 °C
