

SYNMAR COOLANT RED -26°C | S500002

Description

The Synmar Coolant Red -26°C is a Long Life OAT silicate-free coolant of very high quality and has been specially developed for protection of non-ferrous metals such as aluminium and magnesium. This coolant is already diluted with water creating a frost protection of -26°C. It does not contain nitrite, amines, borate, phosphate, nitrate or silicate, contributing to a cleaner environment.

Application

The Synmar Coolant Red -26°C should NOT be further diluted with water.
