

## Synmar Coolant Organic -36 LL | S500003 V30082022

### Description

The Synmar Coolant Organic -36 LL is a long-life OAT (Organic Acid Technology) silicate-free coolant. This very high quality coolant has been specially developed for protection of non-ferrous metals such as aluminium and magnesium. The Synmar Coolant Organic -36 LL contains no nitrites, amines, phosphates, borates, silicates and no other mineral additives and is suitable for both petrol and diesel engines. This premium coolant is your choice for where amongst other VW TL-774 F (G12+) VW TL-774 D (G12) or Renault Type D specifications are required.

### Application

The Synmar Coolant Organic -36 LL should NOT be further diluted with water. This pre-diluted cooling fluid contains additives, protecting against corrosion and foam-building. It is completely safe for rubbers, plastics, metals, aluminium and alloys and provides a permanent, guaranteed protection against freezing up to -36°C. The Synmar Coolant Organic -36 LL is an extended life antifreeze which should be replaced every five years or every 250,000 km for passenger vehicles or every 1,000,000 km for trucks and commercial vehicles. Original Equipment Manufacturers' (OEMs) recommendations should be followed when replacing coolant.

### Performance Level

VW TL-774 F (G12+)  
 VW TL-774 D (G12)  
 BS 6580  
 ASTM D4985  
 ASTM D4656  
 ASTM D3306  
 Renault Type D  
 NATO S-759  
 JASO M325

### Typicals

Color	Red
Density at 20 °C kg/l	1,068 g/cm <sup>3</sup>
Freezing point	-36 °C
Flash point	172 °C
