

Synmar Coolant Organic Universal -36 LL | S500004 V30082022

Description

The Synmar Coolant Organic Universal -36 LL is an ethylene glycol based coolant formulated according to European car manufacturers instructions (OEM's). Synmar Coolant Organic Universal -36 LL is an Long Life coolant that can be used throughout the whole year in the cooling systems of petrol and diesel engines. A guaranteed protection against freezing up to -36°C. This coolant can be mixed with all ethylene glycol based commercial coolant without decreasing the cooling capabilities.

Application

The Synmar Coolant Organic Universal -36 LL should NOT be further diluted with water. This pre-diluted cooling fluid contains additives, protecting against corrosion and foam-building. It is completely safe for rubbers, plastics, metals, aluminium and alloys and provides a permanent, guaranteed protection against freezing up to -36°C. The Synmar Coolant Organic Universal -36 LL is an extended life antifreeze which should be replaced every five years or every 250,000 km for passenger vehicles or every 1,000,000 km for trucks and commercial vehicles. Original Equipment Manufacturers' (OEMs) recommendations should be followed when replacing coolant.

Performance Level

ASTM: D3306/D4985/D4656
 VW: TL 774F/D (G12+)
 MAN: 324 Typ SNF
 Volvo VCS
 AE J1034
 DAF 74002
 GM: 6277M
 Renault Type D

Typicals

| | |
|-----------------------|------------------------|
| Density at 20 °C kg/l | 1,119g/cm ³ |
| Color | Yellow |
| Freezing point | -36 °C |
| Flash point | 172 °C |
