

Synmar Coolant Special PSI-OAT PSA -36 LL | S500009 V30082022

Description

The Synmar Coolant Special PSA -36 has especially been developed for the cooling systems according to modern engine requirements of the Peugeot & Citroën car manufacturers. This ethylene glycol based coolant provides long-life corrosion protection and prevents foaming, sludge formation and leakage. Compatible with most other coolants based on silicate free ethylene glycol with an frost protection up to -36°C.

Application

The Synmar Coolant Special PSI-OAT PSA -36 should not be further diluted with water. Based on mono ethylene glycol and formulated according to European car manufacturers instructions, the pre-diluted cooling fluid contains additives, protecting against corrosion and foam-building. It is completely safe for rubbers, plastics, metals, aluminium and alloys and provides a permanent, guaranteed protection against freezing up to -36°C. The Synmar Coolant Special PSI-OAT PSA -36 is an extended life coolant which should be replaced every five years or every 250,000 km for passenger vehicles or every 1,000,000 km for trucks and commercial vehicles. Original Equipment Manufacturers' (OEMs) recommendations should be followed when replacing coolant.

Performance Level

PSA: B71 5110

Typicals

Color	Green
Density at 20 °C	1,119g/cm ³
Boiling point	170°C
Freezing point	-36 °C
