

Synmar Coolant Special SI-OAT BMW -36 LL | S500007 V17112022

Description

The Synmar Coolant Special SI-OAT BMW -36 LL is exclusively formulated and produced to protect your BMW engine year-round. It complies to the BMW LC-18 standards and requirements to protect the engine up to -36°C, boil over, corrosion, and excessive silicate gel precipitation. This Long Life coolant provides excellent protection for metals such as cast iron, steel and aluminium.

Application

The Synmar Coolant Special SI-OAT BMW -36 should not be further diluted with water. This pre-diluted cooling fluid contains additives, protecting against corrosion and foam-building. It is completely safe for rubbers, plastics, metals, aluminium and alloys and provides a permanent, guaranteed protection against freezing up to -36°C. The Synmar Coolant Special SI-OAT BMW -36 is an extended life coolant which should be replaced every five years or every 250,000 km for passenger vehicles or every 1,000,000 km for trucks and commercial vehicles. Original Equipment Manufacturers' (OEMs) recommendations should be followed when replacing coolant.

Performance Level

BMW: LC 18
 VW: TL 774-L (EVO G12)
 MAN 324 SI-OAT EVO

Typicals

Color	Green
Density at 20 °C	1,071kg/m ³
Boiling point	170°C
Freezing point	-36 °C
