

SYNMAR VACUNA 80W-90 GL-5 | S300152

V25-2503

Description

The Synmar Vacuna 80W-90 GL-5 is a mineral lubricating oil for mechanical transmissions, formulated with high quality solvent refined base oils and special EP-additives to obtain the following properties:

- excellent resistance against oxidation
- a very high activity against wear, corrosion and foam
- a low pour point
- very good EP-properties

Application

The Synmar Vacuna 80W-90 GL-5 is used in hypoid differentials under very heavy duty conditions and should be used in all transmissions that require EP-transmission oils.

Performance Level

API GL-5
 MIL-L-2105B/C/D
 Mack GO-G

Typicals

Colour	Amber
Density at 15 °C, kg/l	0,887
Viscosity 40 °C, mm ² /s	150,50
Viscosity 100 °C, mm ² /s	15,20
Viscosity Index	102
Flash Point COC, °C	214
Pour Point, °C	-27

The analytical data in this product data sheet are typical values. Small deviations, which may occur during the normal manufacturing process of the product, will not affect the quality of the product. Although this overview is composed with the most possible care, Synmar does not accept any liability for damages caused by incompleteness and/or inaccuracies in this information, especially when these are caused by obvious typing errors.
